

Pankaj Unhale

Senior Full-Stack/Frontend Engineer (Angular, JavaScript) — 16 years

V4-104 Vihang Valley, MH, Mumbai • 9987795604 • pankajunhale@gmail.com • [LinkedIn](#) • [GitHub](#)

Summary

Full-stack engineer with 16 years building high-performance web applications and WebUI backends. Expert in JavaScript/TypeScript, AngularJS and Angular 2+, HTML5/CSS3, and Node.js/NestJS; experienced with React/Next.js and C#/.NET. Strong in reusable UI component libraries, cross-browser compatibility, performance optimization, relational database design, and testing (Jasmine/Karma/Cypress/Playwright/Jest). Self-driven team player with a track record of end-to-end delivery and mentoring.

Core Skills

- JavaScript/TypeScript, ES6+, RxJS
- Angular 2+, AngularJS, React, Next.js, React Native
- HTML5, CSS3, Sass/Tailwind/Bootstrap
- Node.js, NestJS, Express, C#/.NET Core
- REST APIs, OAuth2/OIDC (Okta), JWT, WebSockets
- SQL Server, MySQL, PostgreSQL, schema design, query optimization
- Testing: Jasmine, Karma, Jest, Cypress, Playwright
- Git/GitHub/GitLab, CI/CD (GitLab/Jenkins/GH Actions), Docker, Kubernetes, AWS

Professional Experience

Full Stack Developer — Workato, Mumbai

JUL 2024 – Present

- Built backend APIs with NestJS and Prisma; integrated Okta via Auth.js for secure authentication.
- Created a reusable UI component library using Tailwind and CVA; accelerated delivery across apps.
- Implemented unit/integration tests (Jest) and API tests (Superagent).
- Contributed to OpenAI SDK integrations and NX monorepo setup.
- Tech: NestJS, TypeScript, Prisma, Angular 18, React, Vite, Postgres, NX, GitHub, Ruby (SDK), CI/CD.

Lead Software Engineer — HERE Technologies, Mumbai

FEB 2021 – JUL 2024

- Delivered end-to-end features with REST APIs (Node.js/NestJS) and Angular/AngularJS frontends.
- Implemented SMAC backend (NestJS), S3 caching, Prometheus metrics, Grafana dashboards.
- Built Product Service APIs for migration, IAM, feedback modules with strong test coverage.
- Led AngularJS → Angular migration using new design system; mentored and code-reviewed.
- Tech: NestJS, Node.js, Express, TypeScript, Angular, AngularJS, AWS, K8s, Grafana, Splunk, GitLab CI, Helm.

UI Architect — Capgemini India, Mumbai

AUG 2015 – JAN 2021

- Owned HLD/LLD, RFPs, POCs; delivered web/mobile apps with Angular, React, React Native.
- Celcom: end-to-end delivery, UX collaboration, performance practices.

- Paybrij: Electron desktop app with SQLite3/Knex; designed schema/services and reusable React components.
- Tech: Angular, React, Electron, SQLite3, Knex, Jest, Tailwind.

Sr. Dot Net Developer — General Mills India, Mumbai
APR 2013 – AUG 2015

- Built enterprise web apps using Angular, C#, Entity Framework, SQL Server.

Team Lead — Dusane Infotech India Pvt. Ltd, Thane
SEP 2007 – APR 2013

- Delivered web apps with C#, jQuery, AngularJS, MS SQL Server; led a small team.

Software Developer — Technobahn Infotech India Pvt. Ltd, Nanded
OCT 2005 – MAR 2007

- Developed ASP.NET/C# applications with MS SQL Server backends.

Selected Impact

- Reduced regressions via layered testing and CI gates.
- Led AngularJS → Angular migrations, enabling faster delivery.
- Implemented observability (Prometheus/Grafana), improving reliability and MTTR.
- Built reusable UI libraries to standardize UX and speed development.

Education

- Computer Science — MGM College of Engineering, Nanded (JUL 2004)
- Diploma in Computer Technology — MIT College of Engineering, Aurangabad (JUL 2000)

Tools & Platforms

Git, GitHub/GitLab, Jira, Confluence, Splunk, Grafana, Amplitude, AWS, Docker, Kubernetes, Storybook, ESLint/Prettier, Postman, Swagger/OpenAPI.

Keywords (ATS alignment)

Angular, AngularJS, JavaScript, TypeScript, HTML5, CSS3, Tailwind, RxJS, Node.js, NestJS, Express, REST, OAuth2/OIDC, Okta, MySQL, PostgreSQL, SQL Server, Relational DB Design, Git, CI/CD, Docker, Kubernetes, Performance Optimization, Testing, Cypress, Jasmine, Karma, Playwright, Cross-Browser, WebUI Backend, Reusable Components.
